

Josh Gier

REAL ESTATE TECHNOLOGY & TRANSFORMATION EXECUTIVE

Product Strategy - Enterprise Platforms - Applied AI - Commercial Leadership

Singapore - Singaporean joshua.gier@gmail.com josh-gier.com LinkedIn GitHub

EXECUTIVE PROFILE

Real-estate technology executive and founder with a record of building regional businesses, commercialising enterprise platforms and leading technology-led transformation. Combines product strategy, commercial leadership and strategic client development with direct involvement in architecture and delivery.

Career combines CBRE regional leadership with company building at Aier Studios, spanning corporate real estate, investment and asset management, workplace intelligence and enterprise commercial systems. Brings technical depth to executive decisions and commercial discipline to product development.

PROFESSIONAL EXPERIENCE

Aier Studios

December 2021-Present

Real Estate Tech - MarTech - SalesTech studio

Singapore / Europe

Founder (acquired by Kerria-AM/Jerikho IM group)

Aier Studios builds software, data and AI systems for real-estate owners, operators and advisory firms, alongside MarTech and SalesTech for global enterprise brands.

Real-estate clients and partners include Kerria AM, Jerikho IM, Babylon, Mineral and JLL France. Enterprise work includes brands such as LEGO and Bosch Professional.

- o **Company building. Built Aier to approximately US\$1.2M ARR within the first year, scaling a 25-person team across technology, product, marketing and commercial functions with delivery across 30+ markets, 110%+ net revenue retention and gross margins above 50%; subsequently acquired through Coliseum.**
- o **Real estate investment & asset intelligence. Designed and built acquisition-screening, transaction-analysis, underwriting and portfolio applications spanning NOI, CapEx, IRR/MOIC, leverage, refinancing and exit scenarios.**
- o **Asset repositioning, spatial planning & operations. Built technology for property evaluation, workplace and spatial planning, refurbishment, adaptive reuse, project delivery, facilities workflows and building experience.**
- o **Property and investor commercialisation. Developed systems connecting asset positioning, investor and property CRM, enquiry qualification, relationship development, marketing automation and opportunity management.**
- o **AI, marketing and sales technology. Built proprietary systems for research, campaign planning, content production, media operations, lead generation, attribution and reporting; reduced creative-production cost by approximately 60% and cut brief-to-live time in half.**

PROFESSIONAL EXPERIENCE

CBRE Asia Pacific

January 2016-December 2021

Global commercial real estate services, advisory and investment management

Asia Pacific - Singapore-based

Progressed from Strategy & Consulting into enterprise client development and APAC technology leadership, using workplace and technology mandates to build larger, multi-service client relationships.

Regional Technology Lead, Asia Pacific

January 2020-December 2021

- o **Commercial and revenue impact. Technology and workplace mandates contributed to** approximately US\$100M in annual revenue across broader CBRE service lines. Built commercial strategy, pricing and GTM motions for enterprise technology, data and advisory offerings.
- o **Business and organisational scale. Scaled the regional capability from two people to 50+** direct employees and a wider 250+ consulting and delivery organisation across seven markets.
- o **Product, GTM and market development. Commercialised CBRE's software suite, data and analytics portfolio across APAC;** positioned workplace analytics, predictive models and digital workplace tools as commercial engines for global clients.
- o **Enterprise delivery. Partnered with engineering, analytics, consulting, sales and product teams** on integration, localisation, access controls, user acceptance, adoption and multi-market delivery.
- o **Strategic accounts. Sold technology, analytics and transformation programmes to C-suite stakeholders** across real estate, financial services, telecommunications and public-sector organisations.

Associate Director, Advisory & Transactions, APAC

January 2017-January 2020

Led enterprise client development and technology-enabled advisory across workplace transformation, portfolio optimisation and organisational change.

- o **Strategic advisory. Combined software, analytics and consulting to address workplace,** location, utilisation and portfolio-cost requirements, linking real-estate decisions with financial, workforce and operating priorities.
- o **Major pursuits. Led RFPs, executive presentations, solution design and multi-market pursuits** involving real estate, finance, HR, technology, operations, legal and procurement.
- o **Global account development. Personally originated and closed a landmark global contract for** CBRE, using a tailored utilisation, cost and location application as the entry point and leading the pursuit through business case, negotiation and mobilisation across the broader Global Workplace Solutions platform.

Strategy & Consulting, Centre of Excellence

January 2016-January 2017

- o **Regional practice. Co-built the regional practice from approximately five to more than 30** people, contributing to its market proposition, GTM approach, pursuit strategy and delivery model.
- o **Occupancy planning & portfolio modelling. Developed an application from recurring client** requirements, turning workforce, property, utilisation and cost information into reproducible planning scenarios and a repeatable technology-led proposition.
- o **Enterprise transformation. Supported workplace and transformation mandates through executive** advisory, analytics, RFPs and multi-market solution development.

Selected enterprise clients across tenure

NTT - Google - Microsoft - LinkedIn - Standard Chartered - HSBC - UOB - Singapore government organisations

PROFESSIONAL EXPERIENCE

D'Perception Singapore

January 2013-December 2015

Commercial interior design, workplace strategy and PropTech

Southeast Asia - Singapore-based

Associate Director, Sales & Marketing (Commercial Interior Design and PropTech)

Led sales, marketing and technology-led client solutions across Southeast Asia for a commercial interior design, workplace and PropTech business.

- Enterprise mandates. Secured major mandates across workplace, commercial interiors, consulting and technology-led propositions.
- Enterprise pursuits. Led client discovery and solution development through RFP, presentation, commercial negotiation and delivery handoff.
- Technology consulting. Built the technology-consulting division's commercial and delivery framework, including internal BI and analytics for tender outcomes, conversion and account development.
- Workplace transformation. Supported corporate occupiers across workplace transformation, commercial interiors and technology integration.
- PropTech leadership. Held a leadership role in the PropTech and sales business during an early strategic investment by an international interiors group.
